Bill:

Please find enclosed transcripts of three oral history tapes done with Ellen Demit that have been transcribed by Connie Friend. Tape #1 is verbatim with very little editing (and with a bunch of "uh's" on my part that I plan to take out). Tape #2 is once again verbatim but with paragraph formatting. Tape #3 is verbatim but in a kind of free verse format. I personally like the free verse format for Ellen and probably also for Agnes. I'm not sure about the others whose speech patterns are very much like our own. Perhaps we will mix and match format and informant, anyway, tell us what you think.

I have also enclosed cassettes that are copies of all the taped interviews and a Xerox copy of each consent form to be archived at the Rasmuson.

Connie continues to transcribe. We plan to do one more interview with Lee Saylor, perhaps using digital equipment, when I come to Fairbanks around December 8th.

Say hello to Dave for me, all the best to you and your family.

Don
